With sizable spaces for entertaining, the home still prioritizes comfortable daily living. The main level features a fireplace, great room-style living, dining, a gourmet kitchen, and a micro-study or flex space. Along with a pantry, mudroom, utility, and powder bath round out the first floor perks. Upstairs includes a primary suite, en suite bath and walk-in closet along with two extra bedrooms and a full hall bath. Accessible by ladder, the third-story loft is the perfect hideaway to watch a movie, read a book, or play board games. Just a short distance from Western Gateway Elementary, shops on Spoke St. and the community park!
