A fan favorite, the Dakota plan offers three bedrooms and two and a half baths in a nearly 2000 square foot package. With generous space for hosting, the home still prioritizes practicality and efficiency. The main floor features great room style living, gourmet kitchen, and a study. Floor one is also fit with a functional mudroom, utility and a powder bath. Upstairs, discover the primary room with an en suite that includes a soaking tub and sizable walk-in closet, two additional bedrooms and hall bathroom.
