1904 OSO AVE

3 BED

2.5 BATH

2202 SF

Timeless and historical aesthetic blend seamlessly with intentional craftsmanship and modern comforts to create this one-of-a-kind build on Oso Avenue. The elevation boasts a unique structural masonry architectural style using custom colored mortar partnered with locally quarried, hand-chiseled sandstone sills. Enter the living and dining room from a timber framed porch through a grand entryway and beneath arches of hand-selected, reclaimed brick. Interior design emphasizes natural materials from stone countertops and tile in a GRAND? kitchen, oak trim and floor, to high-end solid brass hardware and bespoke lighting. A primary suite on the second story features a private study, expansive dual-vanity bathroom and walk-in closet. Along with the primary suite, the second floor hosts a first and second bedroom serviced by a laundry and full bath.
